Click to view the PDF file format is one of the best ways to publish, save and exchange well formatted documents that will seem exactly the same regardless of the device or computer they will open them. Whether it's your RÅ © SumÅ ª, a fiscal form, an e-book, a user guide or a web page, you can't go wrong using a PDF. It is likely that you will already have a free PDF player installed on your computer, but you can do much more with your PDF files than you think. Hit the leap for our first 10 lists of techniques for conversion, exchange, sharing, management and modification of PDF documents. The format of the portable document or PDF, was developed by Adobe Systems and has become the industry standard for document sharing. A PDF document is an exact replica of the original document, whether it is a word processing or text files, graphic design, photo, map or even video. And it can be password protected so that access to functionality as modification and printing are limited [source: adobe]. Insert to create and view a PDF, you need to have the correct installed software. The most well-known PDF-creation software is Adobe Acrobat. Although you need to buy this software, Adobe offers a free PDF viewer called Adobe Reader, which you can download from their website. Also, several good third-party PDF applications can download for free. Some of these can hide PDFs in the original documents. Some products, such as Microsoft Office 2007, have incorporated PDF converters. Here's how to convert a MS Word document into a PDF in MS Word 2007: Click the Office button. Move the mouse pointer above the arrow next to the Save as and select PDF or XPS.Type button a name for the PDF in the file name Box or Select one from the list of files.choose PDF in saving as a drop-down list as. Select Open file after publication to open the new PDF after it was created and saved. This option is only available if the computer has a PDF reader installed. Standard (Online and Print Publication) or Minimum Dimensions (Online Publication) in Optimization for, depending on whether or not you want print quality or size or size of the lower file, respectively. Click Options and set appropriate print options. Click OK.Click Publish to start the PDF creation process. If you need to make corrections or modifications to the PDF, make them to the original Word document and then create a new PDF document [Source: Microsoft Office].
