Maths frameworking 3rd edition pupil book 1.3

The video about Pupil Book 1.3 is not available because it requires Flash Player to be downloaded. The book itself is designed for the higher tier of KS3 students in their first year, and covers key areas such as fluency, mathematical reasoning, and problem-solving. To make learning more engaging, each chapter includes a real-life context that can be used for investigations, challenges, or activities. The book also comes with an accompanying Teacher Pack 1.3 (ISBN 978-0-00-753783-9), which contains answers to the questions in the book, priced at £17.99.
