There's a big white gold seal in the top right corner, and the characters are silvered like the edge. 19. Brown Corners 8 Free High School Diploma Template This template features brown triangles at the top left and bottom left corners of the documents. On the right is a red and gold seal. 20. Red and Gold 4 Free Diploma Template Red and gold elements are used on this template to make it stand out. The characters are in the old English text and black. 5 Quick Tips To Do Great Diplomas in Word for 2021 Here are five quick tips to help you create a professional diploma or diploma certificate. 1. Keep it Minimalism is trending. A modern document would of course be creative but minimalist. Stay away from elaborate designs that will make your document look dated. 2. Creative Vertical and Horizontal Certificate Template in Word, a modern minimalist template from Envato Elements A high-quality pre-built template takes care of the hierarchy of texts. Leaving this important design work to the experts, it is enough to update the necessary details and modify the sentences accordingly. Try not to add more design elements to a template why © It could get bulky. 2. Use the old English text or the Wisely Premium certificate template of Envato Elements that uses the Olde English character only in Take a look at the free template section, and you will notice that Old English Text or similar is the go-to for many. It was the font to use in the past and is still used to give that formal-ancient look. You can still use this font, but maybe just use it for the main title. You do not need to use it for the whole document. 3. Add a personal touch Many institutions add digital signatures and are printed together with the document. If possible, obtain the diploma personally signed by the authorities. It adds a touch of authenticity and makes your graduates feel they have had enough importance to get a signed document personally. 4. Get the Premium Certificate Model of Envato Elements with unique dark background Printing is the most important step of this project. You can create or break the final document. If you do not have a good color printer or if your document has a dark background, it is better to print it professionally. 5. Make it official today, anyone can easily forge any document. It is good to create a diploma certificate that will not cause problems for your graduates in the future. Avoid printing a seal image and use a wafer to create a prominent seal design on these diplomas. Your graduates will really appreciate it.
