Qcy t5 manual

We collect a wide range of owner's manuals from around the web, storing them as both PDFs and HTML files that can be easily viewed on various browsers and devices. This way, we ensure that each manual remains online for years to come and is accessible to those who need it. When browsing through these manuals, you'll typically find information on how to assemble, set up, and operate your purchased product safely. If you have a rare or unique manual, please consider sharing it with us to help others. For QCY-T5 TWS Bluetooth Earbuds: To pair for the first time, pick up both earbuds and search for QCY-T5 on your cellphone. Tap to connect, and the earbuds will auto power on when you pick them up from the case. If this doesn't work, charge the earbuds and try again. To switch paired devices, turn off Bluetooth on your phone, then tap to reconnect with the other earbud. Additional features include: - Three-way Calling: Double press MFB to answer incoming calls from different phones. - Mono Mode: Power off an earbud, then touch it to enter pairing mode. Tap to connect. - Charging: Push an earbud into its case to charge. The LED will glow solid red while charging and turn green for 1 minute once fully charged. Product specifications: Model: QCY-T5 Bluetooth version: V5.0 Stand time: approximately 70 hours Charging time: approximately 2 hours Music time: approximately 4-5 hours Talking time: approximately 4 hours Range: 10m (no obstacle) Battery Type: Li-ion Earbud Battery Capacity: 3.7V, 40mAh Charging Case Battery Capacity: 3.7V, 380mAh Input Parameter (Charging Case): 5V, 500mA Bluetooth Profiles: HSP/HFP/A2DP/AVRCP Function Introduction: Warranty Card Warranty Period: 12 months from purchase date (or inquire local seller for details) Free Service: Exchange or repair within warranty period, excluding unauthorized disassembly and physical damages caused by misuse Model Number: Date of Purchasing: User's Name: User's Phone: User's Address: Shop's Name: Shop's Address: Comments: FCC Statement: This device complies with FCC rules for a Class B digital device, ensuring reasonable protection against interference in residential installations. However, there is no guarantee that interference won't occur. If interference occurs, try reorienting or relocating the antenna, increasing separation, or consulting a technician. Hazardous Substances: This item meets EU 2015/863 regulation and ROHS Directive standards for hazardous substance content. Notes: Use device properly to avoid hearing damage. Manufacturer: Dongguan Hele Electronics Co., Ltd. Address: Daojiao Town, Dongguan City, Guangdong, China Before using the headset, read the manual carefully and keep it for future references. The headset needs to be fully charged prior to first-time use. If unused for over two weeks, recharge periodically. Use only chargers from qualified manufacturers. Troubleshooting: If the headset can't find your phone, check if it's in pairing mode; if left unconnected for a long time, it will exit pairing mode and need re-entry. Reboot your phone or headset if procedure errors occur. Caveats: Never disassemble or modify your headset to avoid damage or danger. Don't store it in extreme temperatures or near children/animals' eyes. Avoid using harsh chemicals or strong detergents to clean the headset, and keep it dry. QCY T5 Manual English: To pair QCY T5 Earbuds, follow these steps: 1. Remove earbuds from charging case. 2. Auto power and pairing will begin; one earbud will blink red and green. 3. Open your cellphone's Bluetooth function and search for "QCY-T5". 4. Tap to connect; if successful, the LED will turn off. To switch paired devices: 1. Turn off phone A's Bluetooth faculty. 2. Earbuds will auto disconnect and enter pairing mode. 3. On phone B, search for QCY-T5 and tap to connect. If earbuds fail to auto power on, charge them and try again. To fix connectivity issues with QCY-T5 earbuds, follow these steps: 1. Set your QCY-T5 to factory settings by: * On your cellphone, search for QCY-T5 and tap 'Ignore' or 'Cancel Pairing'. * Hold both earbuds together until the LEDs glow red for 2 seconds. * Release when the LEDs start blinking red and green three times. 2. If your right earbud is not working, ensure it has enough power and perform the reset steps again. 3. To charge your QCY-T5 case: * Place the earbuds in their charging case. * The LED will glow solid red, then turn to green for 1 minute once fully charged. 4. To use Mono Mode: * Power off the earbud by touching the bar for 5 seconds. * Enter pairing mode by keeping the bar touched for another 5 seconds. * On your cellphone, search for QCY T5 and tap 'Connect' to pair. 5. To wear the QCY-T5 correctly: * Rotate the earbud and pop it into your ear. * Shake your head to check wearing stability. * Adjust the mic towards your mouth for better calling experience. 6. Three-way Calling & Switching: * Earphones are connected with phone A. Double press the MFB to answer an incoming call from phone B. * If another call comes in from phone C in sync, double press MFB to put the first call on hold while activating the second call. * Hold MFB to switch between active and held calls. The QCY T5 Earbuds have specific instructions for using them properly: To turn off the earbuds, press and hold both sides of the bar for 10 seconds. If only one earbud is turned off, repeat the process until both are powered off. If you receive an incoming call, double-touch the bar to answer. For a tone-based prompt, touch the bar twice within two seconds. For QCY T5 gaming mode, triple-touch the left side of the bar to turn it on/off. To switch between tracks while music is playing, use the right or left side of the bar. If the volume is too low, refer to your device's settings. The earbuds come with a 12-month warranty. If you experience any defects within this period, contact the distributor for a free exchange service. Before using the headset, read the manual and follow these tips: - Charge the headset fully before first use. - Recharge periodically if left unused for over two weeks. - Use chargers from qualified manufacturers. - Check if the earbuds are in pairing mode if not found by your phone. QCY T5 FCC Statement: This equipment complies with Class B digital device limits, providing reasonable protection against harmful interference. 1. Maintain a safe distance between the device and any radio or TV equipment to prevent interference. 2. Connect the device to a different outlet than the receiver. 3. Contact a professional for assistance if needed. 4. The device complies with FCC regulations, but it may cause interference that must be accepted. 5. Do not modify the device without approval as this could void its use. 6. Be cautious when using the device, especially in extreme temperatures. Firstly, try auto power-on mode by charging your earbuds and then attempt pairing again. Ensure that Bluetooth is turned off on phone A as this will cause the earbuds to automatically disconnect and enter pairing mode. On phone B, search for QCY-T5 and connect it. Note that multi-point connection is not available. If connectivity issues persist, try resetting your earbuds to factory settings by following these steps: 1. On phone A, search for QCY-T5 and tap 'ignore' or cancel pairing. 2. Pick up the earbuds, press and hold both buttons simultaneously for 8 seconds or until the LEDs turn red for 2 seconds to power off. 3. Continue pressing the buttons for another 10 seconds or until the LEDs flash red and green three times then red to set your earbuds back to their factory settings. After resetting, refer to the "First Time Pairing" section to connect your earbuds successfully. To ensure proper wearing of your earbuds, follow these steps: 1. Rotate the earbud and gently push it into your ear. 2. Gently shake your head to check if it's securely in place. For an optimal calling experience, adjust the mic to direct it towards your mouth. Lastly, for three-way calling and call switching, here are some instructions: - If connected to phone A, double press the multi-function button (MFB) to answer a call from phone B. - For calls from multiple devices in sync, double press MFB to put one call on hold while activating another. - To switch between active and held calls, simply hold down the MFB.
