Get the Pokemon Ultra Sun Download Full version for free from Pokemonlog.com which is developed by the Game Freak and Published by The Pokemon Company in the year 2017. Again the region for Pokemon Ultra Sun ROM is Alola region which is based in Hawaii. As we know that this region was also present in the Pokemon Sun and Moon versions. Several new addition and feature are present in the game which makes the game more advance and attractive to play. New Forms, Challenges, and characters are present in the game. The 100% working download link is given at the end of this review.
Basic Info about Pokemon Ultra Sun Version Download:Game full Name: Pokemon Ultra Sun EditionRelease Year: 2017Developer: Game FreakPublisher: The Pokemon CompanySize of setup: 2.72 GBSnapshots of Pokemon Ultra Sun Version free Download:Complete Walkthrough of Ultra Sun Version Pokemon:If you have played its previous version name as Pokemon Sun rom, you will be familiar with the complete storyline and walkthrough. Anyhow, this is one of the most advance and updated version of Sun rom, which is quite often downloaded by lots of gamers. Again the region is based in the Alola region, but there are some changes been done in the Storyline of the game like Pokemon EmeraldSeveral changes to the Pokedex has also been done, as now the Pokedex can talk with the main player and enjoy the updates from the Rotom Pokedex. Some new 3D and 2D characters are also present in the pokedex which is clearly mentioned with its index number. You can call these items and characters by simply calling the Pokedex model which is Rotom Pokedex.
New Forms:Several new types of forms are present in the game, which makes the game more interesting and complex to play. Like the Legendary Pokemon Necrozma is present now in the game. Now the Pokemon Necrozma is named as Dusk Mane Necrozma and Dawn Wings Necrozma. All these types of forms can be found in the latest version. All of these are part of the Mascots and you can download the game from the link given at the end of this article. You can also download Pokemon Moon OR Pokemon Ultra MoonNew Characters:Several new characters are present which increases the interest of the players. Some of these characters are bad in manners while some of them are good. The Good characters are really friendly and all the bad characters are the enemy type. However, you can also make them good as we Capture the Wild Type pokemon. The similar process can be applied to them also for making them good enough to live with them.
Iki Town Festival:To access the Iki Town Festival in Pokemon Ultra Sun / Pokemon Ultra Moon, you will need to first befriend Wicke. You can do this by completing her tasks which are simply giving certain people some Tide Sets that she asks for. Once done with Wicke's Tasks, she'll eventually throw a party for the player in Po Town at the Nihilego Statue location. After the party, talk to Wicke again, and she'll direct you to the Pokemon Center. Once there, go upstairs and interact with the purple Pokemon Box in the back where a Pokemon Model will drop down from above. Take it and take it back to the Pokemon Center's Pokemon Box location.It's said that once this Pokemon Model is returned to its box, you can then find a hidden Pichu Pokemon at Beach Cave! These items vary from a variety of different Pokemon-related paraphernalia such as clothes, hats, glasses and more!Alola Forms:In these forms, some of the inhabitants are just for the purpose of microclimate changes adaptation. These species can be transfer from one form to another and from one region to another region. You can also test these species as they will contain all the variants of Alola region hence it is called as Alola form.A new Pokemon, Alola Form Lycanroc, will be introduced in Pokemon Ultra Sun. Lycanroc are Pokemon that evolve from Rockruff when its happiness is at maximum. The Pokemon takes on the appearance of a normal Lycanroc at 0 Happiness, and evolves back to Rockruff if it becomes unhappy. Pokemon can be given berries to increase their affection towards the trainer; but berry trees won't bloom until after the player solves a trial involving Totem Pokemon.Pokemon found in different areas have different appearances, depending on what part of Alola they live in. Some Pokemon will have an alternative coloration when found in certain locations. New Megastone added - Red Scizorite (Doubles Attack if Pokemon holds it). Pokemon found in different locations have different skins. Pokemon will also take on a coloration depending on whether they were caught in the wild or hatched from an egg (e.g Pokemon that hatch from eggs in Pokemon Sun take on a lighter coloration than Pokemon captured at the same level).Battle System:The battle system of the game is the new one with several animation and realistic effects. Some of the battles are tough to do and some of them are easy. You can also make use of Z Moves in them for gaining the great power. But you have to keep in mind that always use the Z Moves in only one per battle in order to gain the power in real means.In Pokemon Ultra Sun, you can now use Z-Moves for attacks for Pokemon such as Z-Moves: Breakneck Blitz (Pikachu), Bloom Doom (Togetic), Inferno Overdrive (Rapidash) etc. You can obtain these by leveling up your Pokemon to a certain level. You will be able to learn the move after using it in battle once, if triple checked that way, then it'll unlock itself in the Move Encyclopedia to be used again on any Pokemon holding a specific Mega Stone or not.For boss battles this time, Pokemon Sun and Pokemon Moon had us a challenge with Z-Moves, but in Pokemon Ultra Sun they are fairly simple to beat. The toughest point of Pokemon Sun and Pokemon Moon was the battle with Necrozma at the Altar of the Sunne/Moone on Ten Carat Hill. In Pokemon Ultra Sun however, it is just an ordinary Pokemon Battle! This time Necrozma has both new forms: Solgaleo (Ultra Burst) and Lunala (Ultra Guardian). While he's not as hard as his counterpart from Pokemon Sun and Pokemon Moon, if you haven't fully prepared yourself then this will be your most challenging boss fight yet. In order to capture him though, you'll have to use Pokeballs, Ultra Balls or Dusk Balls, even though Pokemon Sun and Pokemon Moon had you use Dusk Balls to capture him the first time and Ultra Balls the second.If you have Pokemon Sun save data on your Nintendo 3DS (which was released in November 2016) then you'll be able to get a Froakie holding a Blastoisnite from Professor Kukui as your starter Pokemon. This will change the look of your trainer by making them wear an outfit similar to Ash's style whenever you talk to people in Lillie's house.Poke Rides:This is one of the best feature available in the pokemon Ultra sun download rom, through which you can call the services for rides from one place to another. For Poke Rides, you are actually calling the Pokemon Character but they are not part of your team.Some amazing features of Pokemon Ultra Sun ROM in list form:Great UI and Environment.Z Moves are present.Alola Forms are present.Some new Characters are there.Entirely new Pokedex.Pokedex can suggest different locations.Download Pokemon Sun ROM Game For Free:For Downloading the game, make sure that you click the download link given below.
