Samsung phone related posts Microphone not working on Samsung Photo not working Problem on Samsung and evolving Offady/Today owns this article. This post was published on 22-03-22. Samsung Text does not work on Samsung Galaxy phones. Prepare a special announcement. Even though it works great, sometimes you are left behind waiting for approval or OTP codes to perform an operation or join the service. Of course, you will remain useless to other Samsung users who have trouble receiving messages. In this post, we will tell you eleven fixes to solve the problem. Solving the problem of Samsung phone not receiving messages, from mobile verification to program. We also looked at Samsung iMessage phones. Let's check the solution in detail. Restart Phoneya and start the troubleshooting process by restarting your phone. Then stop everything you are doing on your phone and start Galaxy.2. Check Mobile networkThen make sure you have mobile network on your phone. Therefore, check if you can make or receive calls. Similarly, try sending an SMS from your phone. If everything is OK, check for further repairs. However, if you are unable to call/text, check your cellular plan and network first. We suggest contacting your service provider. Tip: If you don't receive MMS, check if your data balance is tied to your mobile number.3. Removing SIM cards is an old trick that you should definitely try. Basically, remove the SIM card from the slot. Clean it with a microfiber cloth and isopropyl alcohol solution. Then put it back. Or, if you have a dual Simsun phone, try the SIM card in anotherThis should exclude problems with the SIM card slot. Another similar solution is to insert a SIM card into another Android phone. Wait for your mobile operator to set up the SIM card. Then remove the SIM card and insert it into the original phone. 4. Fill the cache for the application of the message, you must also try to empty the application cover of the Samsung message. Do not worry, you will not delete any of your messages or other personal files on your phone. To remove the Samsung cache, open the phone settings and access applications. Press the messages, then press the storage. Finally, click on the Cancel Cache button. Recharge the phone. Tip: You can also use the "Cancel data" button. This generally does not cancel your messages. However, we advise you to make a backup copy of messages before trying. Discover in detail what is happening when you delete Android applications. 5. Check the blocked contacts in case you do not receive messages from one or two contacts on your Samsung phone, you must check the list of stuck contacts. You may have blocked them by mistake. To check this, open the Samsung Messages app on your phone. Click on the "Three points" icon at the top and select "Settings". This will block numbers and messages, then block the numbers. Here you will find a list of stuck contacts. Click on the icon to delete next to the number you want to unlock. Tip: You can also check the list of blocked numbers in the telephone request. In the phone application, touch the tripartite icon. Access the settings-> Block numbers 6. Incompatibility with iMessage if the iPhone user tries to send you iMessage on your Samsung phone, it will not be able to send it and you will not get it. Indeed, Samsung phones do not support iMessage. It is a service that only works between Apple devices. Thus, iPhone users will have to send ordinary SMS to your Samsung phone. Tip: Do you know that Android has its own service, similar to iMessage? More detailed information on RCS on Android. The cancellation of the iMessage recording if you recently went from the iPhone to the Samsung Galaxy phone, you may have forgotten to disconnect iMessage. This may be the reason why you do not receive text messages on your Samsung phone, especially by iPhone users. In fact, your number is always linked to iMessage. Thus, other iPhone users will send you iMessage. As mentioned above, Samsung phones do not support iMessage. We recommend that you deactivate iMessage before going to the Android phone. Don't worry. You can always cancel the registration iMessage. If you have an iPhone at hand,Your SIM card goes back to iPhone. Then go to Settings > Messages. Turn off the switch next to iMessage. Alternatively, you can prank on Apple's official website without your iPhone. FREE Storage Due to limited internal storage, Samsung may not have received any messages on your phone. You can check the available storage under settings > Device Maintenance > Storage. To free up storage space, you need to delete old messages from your inbox. Also check other ways to increase internal memory on Samsung phones. Are messaging apps from third-party providers using a different messaging app than Samsung Messages? We recommend making Samsung messages standard practice to see if you can receive messages. You can try Google the Android Messages app. Make it a standard messaging app. Take a look at our comparison between Samsung messages and Android messages. Check modeseveral checkout times due to a third party application, it can also occur the issue of not getting any messages. To find out, you need to put your device into safe mode. To do this, press the network switch. Tap and hold the Switch symbol followed by the safe mode symbol. However, applications from third-party providers do not work in safe mode. Then you can check if your device can receive messages in safe mode. If you can receive messages then a third party app is causing the problem. Search for recent apps from third-party providers and uninstall any suspicious apps you find. To leave safe mode, simply restart your phone. Put the application settings back. If nothing works, you should try to reset the app settings. This includes app permissions, standard apps, etc. It resets most settings to their default values. You should reset them. Your personal data or files are not affected. In detail, see what happens when you reset app settings. You should be able to receive new messages on your Samsung phone. However, as soon as this is fixed, you will not receive any old news that you sent before. Connection.
